

# Kitchen Trends for 2021

**K**itchens are still the number 1 room to renovate in your home this year. If you are renovating or building new, here are some key trends to consider.

## Two-Toned

Add a bit of depth in your kitchen design with a two-toned colour approach. We are seeing different colour cabinetry on the island to add some contrast in the kitchen. If you don't have a kitchen island, you can mimic this trend by selecting a different colour for your lower cabinets compared to your uppers.

## Touch of Gold

Gold is here to stay this year. It has moved from jewelry and home finishes to the kitchen hardware in a big way. Add a touch of gold to kitchen with an easy upgrade to your kitchen faucet or hardware. Carry the trend with gold accessories on shelves or your countertop.

## Quartz Countertops

Quartz is a manufactured product and has an endless array of colour and pattern options that you can't get in natural stone like marble or granite. It is a durable surface, easy to maintain and resists staining.

## Clean Lines

Cabinetry is on trend with a minimalist design. From smooth, sleek lines and minimal to no hardware, this trend can be seen in any size kitchen.

## Back Splash

While white is still the most common colour for a backsplash, this is a great place to add some of your personality to the room. The selection of pattern and textured tiles is growing each year and can really add a splash to your kitchen. Solid, one-piece marble back splashes are also on trend for the year.

## Organic Elements

Natural elements such as wood grain cabinetry, rattan or bamboo pendant shades and plants are making their way into the kitchen. This is a great way to incorporate a light and uplifting feel to your kitchen with raw materials.

Your kitchen design specialist can walk you through which trends suit your family's needs and style. You can add a current trend to your kitchen with a small upgrade to a full kitchen renovation, let the creativity begin! - DYH

## Create Your Signature Style

We pride ourselves on creating custom, personalized designs that will bring your kitchen to life. We provide a hands on approach to every project, large or small. From the design process, to material selection, delivery and install, we take care of every last detail.
