Elite Sunrooms

Many of us love summer and all Mother Nature has to offer, but when the elements and bugs ruin your precious summer days and nights, wouldn't it be nice to be sitting in the "outdoors" and still be sheltered from the elements? Or would you rather have some additional space to entertain in or a guest room? A Sunspace sunroom by Elite can give you all of that and more.

Elite Sunrooms is owned and operated by Keith Bourgeois, a Red Seal carpenter for 35 years, boasting over 20 years in the sunroom industry. Aiming to provide their customers with a superior product, Elite has chosen Sunspace, a Canadian owned manufacturer. Their rooms never fail to impress customers. From the durability to the aesthetics, you will not find a comparable product. The rooms are engineered for Canadian winters and are customized for each customer. With a wide range of colour options and style of rooms, your dream project can be a reality. Consultation and estimates are free and there are never any hidden costs.

Don't know where to start? Keith has worked on hundreds of projects and can advise you on everything

from location of the sunroom to the decor. Elite will take care of everything from obtaining the building permits to hanging the blinds. All you have to do is share your vision for the project and they do the rest.

Their team is professional every step of the way and the workmanship and attention to detail is reflected in every room they build. Most projects are completed in a week or less, so you will be able to start enjoying it right away.

Whether you are interested in extending the space in your home or cottage, or looking for a comfortable way to beat the heat, the rain, or the bugs.... Elite Sunrooms will show you how a sunroom can enhance your life today.
