

A Classic Update

Refreshed + Refurbished

Photos Submitted

If you are looking for a little update in your home, paint is a great place to start. Paint can transform a room from walls and trim to cabinetry. Kailan Dreolini at Refreshed + Refurbished has been transforming rooms for years!

In her latest project, she worked with the homeowner to update their original kitchen. The owners have lived in the home for 25 years and got a fresh new look at a fraction of the cost of a new kitchen. They still loved their kitchen and it was functional for them, so they turned to Kailan for help.

Kailan painted the walls in the kitchen a classic colour of *Downtown Grey* by Behr. It freshened up the room and was a perfect tone next to the cabinetry. With the cabinets, Kailan took the time to properly prep them for paint. The colour chosen was *Silver City* by Behr, really brightening up the space. New modern door hinges and

handles were also added. The homeowners ordered custom countertops and Kailan helped them install a new backsplash to complete the look.

Kailan tells us that homeowners change out their countertops about 50% of the time, as it is not always necessary. When looking to update your space, Kailan can paint walls, doors, and trim, as well as cabinetry. She helps homeowners pick out new hinges and handles for their cabinetry and can also replace glass door inserts with a variety of options. -DYH
