With a diverse range of products catering to both residential and commercial needs, Westman Fencing has successfully established itself as a reliable choice for customers seeking durability, aesthetics, and functionality in their fencing options.

Westman Fencing boasts a diverse product lineup, featuring four primary types of fencing: wood, vinyl, chain link, and ornamental. Each type caters to distinct needs, offering customers a versatile range of options to choose from.

Historically, wood fencing has been a staple for homeowners, providing a classic and timeless aesthetic. However, recent years have seen a shift in popularity due to increased lumber prices. Westman Fencing addresses this concern by offering innovative solutions, including the introduction of steel posts for wood fences. These steel posts not only enhance the fence's structural integrity but also prevent the common issue of wood rot, ensuring a longer lifespan for the fence.

Vinyl fencing has gained immense popularity in recent times. With a focus on providing maintenance-free solutions, vinyl fencing has become a preferred choice for homeowners looking for durability without the hassle of upkeep. The inclusion of a lifetime warranty further enhances the appeal of Westman Fencing's vinyl options, providing customers with peace of mind regarding their investment.

Recognizing the need for affordable and functional fencing solutions, Westman Fencing continues to offer high-quality

chain link fencing. Ideal for both residential and commercial applications, chain link fencing remains a practical choice for those seeking security without compromising visibility. They offer chain link products that meet the highest standards of durability, providing reliable protection for properties of all sizes.

For customers seeking a perfect blend of aesthetics and security, ornamental fencing options prove to be an excellent choice. Crafted with attention to detail, these fences not only enhance the visual appeal of properties but also provide a secure boundary. Ornamental fencing is available in various designs and materials, allowing customers to tailor their choice to match the unique style of their home or business.

Westman Fencing's commitment to providing high-quality fencing extends to both residential and commercial applications. Whether homeowners are looking for an elegant vinyl fence or a classic wood fence, or businesses require secure chain link or ornamental fencing, Westman Fencing has the expertise and products to meet diverse needs.

Westman Fencing stands as a leader in the fencing industry, offering a comprehensive selection of wood, vinyl, chain link, and ornamental fencing solutions. With a keen eye on innovation and customer satisfaction, they continue to evolve and adapt to the changing landscape of the fencing industry, providing reliable and durable options for a wide range of customers.
